

BLACKTRACTION

RENEW_PROTECT_STRENGTHEN

BLACK LEATHER

TECHNICAL DATA SHEET

Renewal, maintenance and protection of skin (natural and synthetic) and leather blacks.

CHARACTERISTICS

Liquid mixture without vaseline and silicon to absorption, to renew, maintain and protect hydro repellent with the longer time effect, to black skin and leather, to:

- renew appearance (brightness and color intensity) of black leather and skin, with immediate effect;
- cover and standardize the aesthetic imperfections (abrasions signs and cracks with different shades of color);
- make water-repellent skin and leather protecting against from atmospheric agents and moisture that causes deformations ;
- don' t create visible thickness;
- enrich old skin and leather, allows them to regain and retain their shape;
- easy application with brush, which ended with the passage of a cloth to remove excess product;
- get glossy finish with two applications;
- don't contain silicone / Vaseline;
- let dry finish to the touch, water-repellent after absorption;
- be easily cleaned by chrome;
- resistant to degreasers, solvents and high temperatures.

PROPERTY:

WEATHER RESISTANCE: EXCELLENT

RESISTANCE TO ABRASION: EXCELLENT

RESISTANCE TO UV: EXCELLENT

ELASTICITY: EXCELLENT

THERMO / RESISTANT AND PAINTABLE

FINISH: WATERPROOF DRY TO TOUCH,DON' T DETERMINING THICKNESS

COLOR: BLACK

SPECIFICATIONS

ABSORPTION: at ambient temperature 20 °, dry to the touch in 30 min. (consequently variable status).

Wait 24 hours before clean with aggressive detergents.

STORAGE

The product must to be stored in the original containers, away from direct heat sources, open flames, sunlight and reach of children. Close the container after use. PRODUCT WITHOUT EXPIRY KEPT CLOSED.

APPLICATION SYSTEM

The product it' s ready to use. Don' t dilute. Shake before to use. Apply with a brush on dry skin and leather at a temperature greater than 5 ° C. After application, wait 10 minutes and wipe with a cloth to even out and remove excess product.

To get glossy finish, repeat the application after 24 hours.

EQUIPMENT

Brush; cotton cloth.

YIELD

18/25 m² / liter (variable about characteristics of porosity and of the surface state of degradation).

APPLICATION TEMPERATURE

+5°C +40°C

BLACKTRACTION

RENEW_PROTECT_STRENGTHEN

- Prepare the surface clean and dry;
- Prepare the surface clean and dry;
- Protect your skin and clothes, the product spot.
- Shake before using;
- Apply the product with a brush, uniformly on the surface;
- After 10 minutes pass a cotton cloth to remove excess product;
- Wait 24 hours before you start cleaning with detergents.

SPECIFICATION ITEM

Hydrocarbon / solutes mixture without Vaseline and wax, to renew and protect of leather and skin black, to standardizing the aesthetic imperfections, with average yield of 40 ml / m² (consequently variable porosity characteristics, quality and state of degradation).

WITHOUT VASELINE / SILICON; NOT CORROSIVE; PRODUCT WITHOUT EXPIRATION.

WARNINGS

To obtain the best possible result, you must follow the signs for surface preparation and the respect of optimum conditions. The technical information are approximate. It is recommended to adapt them to specific conditions of use.

The specification data and technical information have been calculated at + 15/30 ° C. In different conditions the data and the times can have slight variations. Our recommendations on the use of the product are based on accurate observations and research carried out on their own. Were also taken into account the experience gained in the practical application. However, because of the variety of skins, their state of conservation and the application conditions, you can get slightly different results.
